TERMS AND CONDITIONS OF SALE

TERMS—2% for cash if paid on or before 10th of month following date of invoice, and is due NET 30 days thereafter. Interest charged on past due accounts.

These terms are offered to those with established credit; otherwise cash, security, or satisfactory references. C.O.D. orders must be accompanied by one-fourth cash.

PRICES named in this list are based upon present market conditions and are subject to change without notice. These are Wholesale Prices and apply upon the following quantities:

FRUIT TREES, SHADE TREES AND SHRUBS

All grades and varieties in any one class allowed to make total. For example:

All fruit trees are considered one class, all shrubs one class, etc.

SMALL FRUITS, HEDGING, PRIVIT, AND ALL SEEDLINGS:

300 of same variety and grade at 1000 rate.

Under 300 of same variety and grade at 100 rate.

NOTE—Classifications as given above are understood to be as listed under general headings in price list. (Broken lots of less than 10 of any one variety and grade will be billed at 20% above 10 rate.)

BROKEN LOTS—The Wholesale Prices in this apply for wholesale quantities. Please order in such multiples as to avoid breaking bundles.

ALL PRICES ARE NET, BOXING AND BALING EXTRA; NO CHARGE FOR PACKING BULK CARS.

FREE PACKING FOR CASH WITH ORDER.

SHIPPING—Please give shipping instructions whether by freight or express and route. If no instructions are given we will forward to the best of our judgement, without assuming responsibility. **ALL SHIPMENTS TRAVEL AT THE PURCHASER'S RISK AND EXPENSE.**

CAUTION—We accept all orders subject to crop conditions and on condition that same shall be void should injury befall our stock from hail, fire, frost, error in count, or other causes beyond our control. All orders are accepted without liability for non-performance if labor shortages or delay in transportation should prevent us from making delivery.

HONEYLOCUST, Skyline Locust, Pat. 1619

An unusual variety of distinctive pyramidal form. Foliage is dark green and leaflets are larger and more closely spaced than the average Honeylocust. It developes a strong trunk and shapely crown without being staked or specially trimmed. Branches are uniformly spaced, resulting in a well filled, rather formal appearing tree.

Practically all flowers are male but infrequently a polygamous flower has appeared in which a single floret is female. Only a small percentage of these are pollinated, therefore seeding is of minor importance.

6 to 7 feet, whips -----	2.40	2.15

HONEYLOCUST, Sunburst Locust, Pat. 1313

The first new color in a hardy ornamental shade tree in decades. Bright golden foliage on 8 to 10 inches of branch tips, contrasts with the rich green of the balance of the tree; appears to be in bloom all summer. Broadly pyramidal head and excellent branching habit creates a beautiful symmetry unmatched by other Honeylocusts.

ROSES

Our roses are California grown under irrigation. The grower has been in this business for many years and has been producing what we think is as good a plant as can be grown. These roses will come into our storage in late winter and will be kept in refrigerated cold storage until you desire shipment.

Printed labels will be furnished for all roses.

Figures following variety indicate rating by American Rose Society.
